

SONG TO THE GURU

F *C*
I don't know how it works
Am *C*
But since I met you
Am *C*
My life has been true blue
Dm *F* *C*
Even in disaster, you shine me through
Dm *F* *C*
I know you'll take care of me.

My life has been so blessed
You always reach me
Right there to teach me
All I have to do is mind rest
I know you'll take care of me

Throughout all my lives
You are the sunrise
You are the clear skies
You dry the tears from my eyes
I know you'll take care of me.

Not like I ever knew
You fill me completely
Satisfy so sweetly
When I am one with you
I know you'll take care of me.

When comes my fear of death
I feel you in my heart
From me you'll never part
When it comes to take my last breath
I know you'll take care of me.
