

## MAGIC

Marking trees for their harvest  
I heard faeries whispering  
In wildflower fields and in the big old trees  
They cried, "Go away, please don't harm me"

And it was magic, I heard magic,  
I couldn't doubt it anymore  
I heard magic, faerie magic  
Listen to the flowers for faerie lore

Full moon rise at Shiva's temple  
Panorama, Himalayan Peaks  
Five directions, five colours, five wisdoms  
Dhyani Buddhas showed their majesty

And it was magic, I saw magic  
I couldn't doubt it anymore  
I saw magic, Buddha's magic  
Mystic vision of the Lion's roar

When my mind was in trouble  
In dreamtime you came to me  
You wrapped my sorrow in your great big arms  
And said, "Baby, you are free"

To make magic, with pure intention  
Because that is what it's for  
There is magic, there is magic  
No need to doubt it anymore

Gather up your pure intention  
Make it clear in your mind  
O'er beauty to the magic ones  
Ask them please, please heal human kind

And make magic with pure intention  
Because that is what you are for  
There is magic, there is magic  
No need to doubt it anymore

It is true you have power  
Trust your inner guiding light  
Walk right in to your sacred space  
Walk out clear, strong and bright  
And make magic, with pure intention  
To heal others because that's what you're for  
There is magic, there is magic  
No need to doubt it anymore
