

REAL LOVE

Real Love, True Love, Real Love is letting go
Real love, True Love, Real Love is letting go

What's the use of hanging on to feelings that make you uptight
Take every opportunity in short, human life to give LOVE
Real Love, True Love, Real Love is letting go
Real love, True Love, Real Love is letting go

When you try to force someone you love to do the things that you want
You only end up with a love that's cold as the winters in Vermont
Real Love, True Love, Real Love is letting go
Real love, True Love, Real Love is letting go

Accept your people as they are fat, warts and all
Work on yourself, be good them
They'll stick with you through life's long haul
Real Love, True Love, Real Love is letting go
Real love, True Love, Real Love is letting go

People hurt you, jobs fail, disasters come,
Breathe in, breathe out, 'cause we are the ones who give love
Real Love, True Love, Real Love is letting go
Real love, True Love, Real Love is letting go
